# Sum Reachka

---

Dear Hiring Manager,

As a dedicated third-year computer science student at the Royal University of Phnom Penh, I am a passionate web developer with a strong foundation in HTML, CSS, and JavaScript. Through my internship experience and volunteer work, I have honed my skills in creating responsive user interfaces, collaborating with designers, and contributing to team discussions on best practices.

I am writing to express my strong interest in the Frontend Developer position at your esteemed organization. I am excited about the opportunity to apply my technical expertise and adaptable problem-solving skills to contribute to your team's success.

During my academic journey, I have developed a solid understanding of programming languages and web design principles. My experience in collaborating with designers to implement responsive user interfaces has equipped me with the ability to create visually engaging and user-friendly web applications.

Furthermore, my internship at the Ministry of Interior provided me with hands-on experience in developing and maintaining web applications, working closely with designers, and participating in code reviews. This experience not only honed my technical skills but also instilled in me the importance of attention to detail, effective communication, and adherence to best practices.

Beyond my technical abilities, I am a proactive and adaptable individual who thrives in dynamic team environments. As evidenced by my volunteer work as an Event Coordinator for RYL Cambodia, I have demonstrated strong organizational and interpersonal skills, as well as a keen eye for creating visually appealing and engaging event experiences.

I am confident that my combination of academic knowledge, practical experience, and passion for web development would make me a valuable asset to your team. I am eager to further discuss how my skills and qualifications align with the Frontend Developer role and contribute to the continued success of your organization.

Thank you for your consideration, and I look forward to the opportunity to interview with you.

Sincerely,  
Sum Reachka
